THINK GLOBAL & RECYCLE LOCAL **Caring Corporations Give Computers to Africa**

COLUMBUS, OH (Dec. 12) /###/ - White Castle Systems Inc., Highlights for Children, Glimcher Realty Trust, Planned Parenthood of Central Ohio, and Dominion Homes are just a few of the many caring Ohio corporate citizens that donated gently used computers to two school systems and one youth center located in Bawku Municipal Assemblies located in the upper East Region of Ghana, West Africa. With the assistance of ParityInternational.org, a budding local nonprofit, school children in Ghana will be able to access electronic information via the Internet.

Curious local individuals ask, "why weren't these computers redistributed locally?" In reply, "... the age and quality of these gently used computers better fit the needs of third world schools," according to George Fournier, Volunteer Director for ParityInternational.org. ParityInternational.org also provides local computers to local families upon qualified request through FirstLink.org.

To learn more about ParityInternational.org ... enjoy their annual holiday benefit to be held at the Ohio State House Capitol on December 20, 2007. ParityInternational.org offers "fee free" computer recycling to caring corporate citizens. Together, these efforts 1) bridge the local and international digital divide for disabled individuals, underprivileged students, and non-profit organizations, as well as, 2) recycle or refurbish viable computers to intercept lead and mercury from local landfills.
